RECEIVED
OCT 07 2009

Attn: Troy Fritzel

Contract Number: V101BC0233
Contract Name: New VA Outpatient Clinic and Regional Office Building

Subject: Subcontractor Safety & Quality Recognition

I would like to take this opportunity to recognize General Mechanical, Inc.'s efforts toward safety and quality on the New VA Outpatient Clinic Building Project during the 2 month period of August and September 2009. GMI, has done an exceptional job of placing safety as the top priority on the jobsite. In addition to GMI's positive safety performance, it is apparent that your jobsite supervisors understand and care about the quality of the work that they are overseeing.

GMI field crews have provided valuable comments at our various weekly safety meetings and have been a positive presence in the field. As we move forward with the project completion, we will continue to keep our focus on providing a safe work environment for all employees and appreciate GMI's assistance in the jobsite safety program.

Delivering the Department of Veterans Affairs (VA) a quality facility by getting work "done right the first time" and actively involving the VA in jobsite quality is always the goal of Kiewit/Cornerstone. In that endeavor, GMI has helped develop positive relationships with the VA personnel that will assist in solving any closeout challenges ahead for the project team.

With your continued efforts in these areas, we look forward to closing out the Work with no accidents and future projects involving GMI.

Respectfully,

KIEWIT/CORNERSTONE J/V

Kyle Welker
Project Manager
